PhD, PEng., PGeo. Keynote Lecture: "Energy Resource Recoverability and Geoexchange Systems"
Rob is a Professor of Hydrogeology, cross-appointed to the departments of Earth Sciences and Civil and Environmental Engineering at the University of Western Ontario.

Energy & Sustainability 2018

"At UC we combine education, research, operational sustainability, cutting-edge entrepreneurship, and public service in a way that uniquely positions us to help take on both the local and global challenges of climate change."

Sustainability - | UCOP

"What you see in our strategy and the new targets we have set is a business that is focused in everything we do on meeting the dual challenge of more energy with fewer emissions."

Sustainability | Home - BP

Geothermal energy is thermal energy generated and stored in the Earth. Thermal energy is the energy that determines the temperature of matter. The geothermal energy of the Earth's crust originates from the original formation of the planet and from radioactive decay of materials (in currently uncertain but possibly roughly equal proportions).

Geothermal energy - Wikipedia

The Department designs and implements the Australian Government's policies and programmes to protect and conserve the environment, water and heritage and promote climate action
