### **Graphing Lines in Slope-Intercept Form.ks-ipa**

This is a great activity for practicing slope-intercept form. Students put together matches from cut up squares that consist of graphs, equations, words, and "m" and "b" values. A "match" can contain any combination of two of these. Students will practice skills identifying slopes and y-intercepts...

To find: y-intercept of the line. When the line intercepts the y axis,  $x=0$ . Hence the original equation  $y=mx+c$  becomes  $y=c$ . Question asks for the value of  $c$ .

### **In the xy-plane, what is the y-intercept of line l? : Data**

Create printable worksheets for graphing linear equations, finding the slope, or determining the equation of a line (for pre-algebra and algebra 1, in PDF or html formats). You can control the types of problems, the number of problems, workspace, border around the problems, and more.

Maybe I'm missing something, but the y-intercept, slope points plotted in the "Gradient Search" graphs don't seem to correspond to the blue lines being generated in the "Data and Current Line" graphs.

## **An Introduction to Gradient Descent and Linear Regression**

The t-test is any statistical hypothesis test in which the test statistic follows a Student's t-distribution under the null hypothesis. A t-test is most commonly applied when the test statistic would follow a normal distribution if the value of a scaling term in the test statistic were known.
