Historical linguistics, also called diachronic linguistics, is the scientific study of language change over time. Principal concerns of historical linguistics include: to describe and account for observed changes in particular languages

Historical linguistics - Wikipedia

Linguistics is the scientific study of language. It involves an analysis of language form, language meaning, and language in context. Linguistic study was originally motivated by the correct description of classical liturgical language, notably that of Sanskrit grammar, or by the development of logic and rhetoric in ancient Greece, leading to a ...
